OVERVIEW

I am an enthusiastic web developer who is deeply fascinated by the world of web development. I possess a strong commitment and passion for creating innovative and visually appealing websites that are functional and responsive. I thrive on collaboration within teams and continually strive to enhance my skills to overcome new challenges in web development.

PROJECT EXPERIENCE

Multi Warehouse E-Commerce | MOKOMDO
Full Stack Developer   Des 2022 - Feb 2023

- Designed the Homepage from scratch using Figma.
- Implemented a robust database architecture, managed server-side logic, and integrated front-end interfaces with back-end functionality.
- Developed a feature that enables users to update their personal data, including addresses, password, photo, and email.
- Developed a product preview feature for users, incorporating pagination, sorting, and filtering options for the product list.
- Developed a user-friendly cart system, allowing users to add products and make updates as needed.
- Developed an admin feature to track and manage user orders efficiently, implementing a pessimistic locking system.
- Participated in code reviews, providing valuable feedback and suggestions for improvements.
- Managed project timelines, prioritized tasks, and ensured timely project delivery.

frontendaese
Frontend Developer   Apr 2023 - Present

- Implemented Google reCAPTCHA v2 on the client side.
- Developed Progressive Web Applications (PWAs) using React JS.
- Designed and developed responsive websites and web applications.
- Created user-friendly interfaces and enhanced user experiences.
